The 227th ECS Meeting will be held from May 24-28, 2014. This major international conference offers a unique blend of electrochemical and solid-state science and technology; and serves as a major forum for the discussion of interdisciplinary research from around the world through a variety of formats, such as oral presentations, poster sessions, exhibits, and tutorial sessions.

Abstract Submission and Deadlines

Abstracts are due no later than November 14, 2014. Note: Some abstracts may be due earlier than November 14, 2014. Please carefully check the symposium listings for any alternate abstract submission deadlines. For complete details on abstract submission and symposium topics, please see www.electrochem.org/meetings/biannual/227/.

Submit one original meeting abstract electronically via the ECS website, no later than November 14, 2014. Faxed abstracts, e-mailed abstracts, and late abstracts will not be accepted. In January 2015, all presenting authors will receive an e-mail notifying them of the date, time, and location of their presentation. Only presenting authors with non-U.S. addresses will receive a hardcopy acceptance letter. Other hardcopy letters will be sent only upon request to abstracts@electrochem.org.

Meeting abstracts should explicitly state objectives, new results, and conclusions or significance of the work. Regardless of whether you submit as a poster or an oral presentation, it is at the symposium organizers’ discretion whether it is scheduled for an oral or poster presentation. Programming for this meeting will occur in January 2015.

Paper Presentation

All authors selected for either oral or poster presentations will be notified in January 2015. Oral presentations must be in English. Both LCD projectors and laptops will be provided for oral presentations. Presenting authors MUST bring their presentation on a USB flash drive to be used with the laptop that will be provided in each technical session room. If a presenting author would like to use his/her own laptop for presentation, we strongly suggest that the author verify laptop/projector compatibility in the presentation room prior to the start of the session or all other presentations. Speakers requiring additional equipment must make written request to the ECS headquarters office at least one month prior to the meeting and appropriate arrangements will be worked out, subject to availability, and at the expense of the author. Poster presentations should be displayed in English, on a board approximately 3 feet 10 inches high by 3 feet 10 inches wide (1.17 meters high by 1.17 meters wide), corresponding to the abstract number and day of presentation in the final program.

Manuscript Publication

ECS Meeting Abstracts—All meeting abstracts will be published on the ECS website, copyrighted by ECS, and all abstracts become the property of ECS upon presentation.

ECS Transactions—All full papers and posters presented at ECS meetings are eligible for submission to the online proceedings publication, ECS Transactions (ECST). The degree of review to be given each paper is at the discretion of the symposium organizers.

Some symposia will publish an “enhanced” issue of ECST, which will be available for sale at the meeting and through the ECS Digital Library. Please see each individual symposium listing in the full Call for Papers to determine if there will be an “enhanced” ECST issue. The in case of symposia publishing “enhanced” issues, submission of a full-text manuscript to ECST is mandatory and required in advance of the meeting.

Some symposia will publish a “standard” issue of ECST for which all authors are encouraged to submit their full-text papers. Please see each individual symposium listing in the full Call for Papers to determine if there will be a “standard” ECST issue. Upon completion of the review process, papers from the “standard” issues will be published shortly after their acceptance. Once published, papers will be available for sale through the ECS Digital Library. Please visit the ECST website (ecsdl.org/ECST) for additional information, including overall guidelines, deadlines for submissions and reviews, author and editor instructions, a manuscript template, and more.

Authors presenting papers at ECS meetings, and submitting to ECST, are also encouraged to submit to the Society’s technical journals: the Journal of The Electrochemical Society, ECS Journal of Solid State Science and Technology, ECS Electrochemistry Letters, or ECS Solid State Letters. Although there is no hard deadline for the submission of these papers, it is considered that six months from the date of the symposium is sufficient time to revise a paper to meet the stricter criteria of the journals. “Instructions to Authors” are available from the ECS website.

If submission is desired elsewhere after presentation, written permission from ECS is required.

Financial Assistance

Financial assistance is very limited and generally governed by the symposium organizers. Individuals may inquire directly to the organizers of the symposium in which they are presenting their paper to see if funding is available.

For details regarding Division-sponsored travel grants for young professionals and students, please see: http://www.electrochem.org/sponsorship/travel_grants.htm

Letter of Invitation

Individuals requiring an official letter of invitation should write to the ECS headquarters office; such letters will not imply any financial responsibility of ECS.

Hotel Reservations — Deadline April 24, 2015

The 227th ECS Meeting will be held at the Hilton Chicago, 720 South Michigan Avenue, Chicago, Illinois, 60605, USA. Please refer to the meeting website for the most up-to-date information on hotel availability and information about the block of rooms where special rates have been reserved for participants attending the meeting. The hotel reservation deadline is April 24, 2015.

Meeting Registration

All participants—including authors and invited speakers—are required to pay the appropriate registration fees. Hotel and meeting registration information will be posted on the ECS website as it becomes available. The deadline for discounted early-bird registration is April 24, 2015.

Short Courses

A number of short courses will be offered on Sunday, May 24, 2015 from 9:00 AM-4:30 PM. Short Courses require advance registration and may be cancelled if enrollments are too low. As of press time, the following Short Courses are planned for the meeting: Electrochemical Impedance Spectroscopy and Fundamentals of Electrochemistry. Please check the ECS website for the final list of offerings.

Technical Exhibit

The 227th ECS Meeting in Chicago will include a Technical Exhibit, featuring presentations and displays by over 40 manufacturers of instruments, materials, systems, publications, and software of interest to meeting attendees. Coffee breaks are scheduled in the exhibit hall along with evening poster sessions.

Sponsorship Opportunities

ECS biannual meetings offer a wonderful opportunity to market your organization through sponsorship. Sponsorship opportunities include unparalleled benefits and provide an extraordinary chance to present scientific products and services to key constituents from around the world. Sponsorship allows exposure to key industry decision makers, the development of collaborative partnerships, and potential business leads. ECS welcomes support in the form of general sponsorship at various levels: Platinum: $10,000+, Gold: $5,000, Silver: $3,000, and Bronze: $1,500.

Sponsors will be recognized by level in Interface, the Meeting Program, meeting signage, on the ECS website, and in the mobile app. In addition, sponsorships are available for the plenary and keynote talks and other special events. These opportunities include additional recognition, and may be customized to create personalized packages. Special event sponsorships will be assigned by the Society on a first-come, first-served basis. Advertising opportunities—including the Meeting Program as well as in Interface—are also available. Please contact Christie Knef at 1.609.737.1902, ext. 121 for further details.

Contact Information

If you have any questions or require additional information, contact ECS, 65 South Main Street, Pennington, New Jersey, 08534-2839, USA, tel: 1.609.737.1902, fax: 1.609.737.2743, e-mail: meetings@electrochem.org; Web: www.electrochem.org.
## Symposium Topics

### A — Batteries and Energy Storage
- A2 — Lithium-Ion Batteries and Beyond
- A3 — Stationary and Large Scale Electrical Energy Storage Systems 5

### B — Chemical and Biological Sensors
- B1 — Nano/Biosensors and Actuators
- B3 — Sensor Applications of Ionic Liquids
- B4 — Sensors, Actuators, and Microsystems General Session (Chemical and Biological Sensors)

### C — Corrosion Science and Technology
- C1 — Corrosion General Session
- C2 — High Temperature Corrosion and Materials Chemistry 11

### D — Electrochemical/Electroless Deposition
- D1 — Metallization of Flexible Electronics
- D2 — Surfactant and Additive Effects on Thin Film Deposition, Dissolution, and Particle Growth

### E — Electrochemical Engineering
- E1 — Alkaline Electrolyzers
- E2 — Electrochemical Engineering General Session
- E3 — Electrochemistry in Mineral and Metal Processing
- E4 — High Rate Metal Dissolution Processes 2

### F — Fuel Cells, Electrolyzers, and Energy Conversion
- F1 — Joint General Session: Batteries and Energy Storage —and— Fuel Cells, Electrolyzers, and Energy Conversion
- F2 — Crosscutting Metrics and Benchmarking of Transformational Low-Carbon Energy-Conversion Technologies
- F3 — Electrochemical Synthesis of Fuels 3
- F4 — Materials for Low Temperature Electrochemical Systems 2
- F5 — Methane-Based Electrochemical Energy Conversion and Storage
- F6 — Solid-Gas Electrochemical Interfaces (SGEI 1)

### G — Organic and Bioelectrochemistry
- G1 — Mechanistic Organic Electrochemistry
- G2 — Students in Bioelectrochemistry
- G3 — Timely Challenges in Electroanalysis

### H — Physical and Analytical Electrochemistry, Electrocatalysis, and Photoelectrochemistry
- H1 — Physical and Analytical Electrochemistry, Electrocatalysis, and Photoelectrochemistry General Session
- H2 — Climate Change 5
- H3 — Computational Electrochemistry
- H4 — Electrocatalysis 7
- H5 — Electrochemistry at Primarily Undergraduate Institutions
- H6 — Electrochromic and Chromogenic Materials
- H7 — Electrogenerated Chemiluminescence
- H8 — Spectroelectrochemistry 3
- H9 — Oxygen or Hydrogen Evolution Catalysts for Water Electrolysis
- H10 — Photocatalysts, Photoelectrochemical Cells, and Solar Fuels 5
- H11 — Structure and Relaxations in Soft Ion-conducting Materials

### M — Carbon Nanostructures and Devices
- M1 — Carbon Nanostructures for Energy Conversion
- M2 — Carbon Nanostructures in Medicine and Biology
- M3 — Carbon Nanotubes — From Fundamentals to Devices
- M4 — Endofullerenes and Carbon Nanocapsules
- M5 — Fullerenes - Chemical Functionalization, Electron Transfer, and Theory: In Honor of Professor Shunichi Fukuzumi
- M6 — Graphene and Beyond — 2D Materials
- M7 — Inorganic/Organic Nanohybrids for Energy Conversion
- M8 — Porphyrins, Phthalocyanines, and Supramolecular Assemblies

### N — Dielectric Science and Materials
- N1 — Dielectrics for Interconnects, Interposers, and Packaging 2

### P — Electronic Materials and Processing
- P1 — Organic Semiconductor Materials, Devices, and Processing 5
- P2 — Processes at the Semiconductor Solution Interface 6

### Q — Electronic and Photonic Devices and Systems
- Q1 — Advanced CMOS-compatible Semiconductor Devices 17
- Q2 — Emerging Materials for Post CMOS Devices and Applications 7
- Q3 — Silicon Compatible Materials, Processes, and Technologies for Advanced Integrated Circuits and Emerging Applications 5
- Q4 — State-of-the-Art Program on Compound Semiconductors 57 (SDAPACS 57)
- Q5 — Wide Bandgap Semiconductor Materials and Devices 16

### Z — General
- Z1 — General Student Poster Session
- Z2 — Nanotechnology General Session
- Z3 — Solid State Topics General Session
- Z4 — Nature-Inspired Electrochemical Systems
