Wondering What the Best Thing You Can Do This Year Might Be?

***Just take a look at all the benefits you will enjoy
as an ECS active member . . .***

- **Free one-year subscription to Interface**—published quarterly, this four-color magazine contains technical articles about the latest developments in the field, and presents news and information for and about members of ECS.
- **Access 100 full-text downloads from the ECS Digital Library (ECS DL)**—choose any combination of articles from the *Journal of The Electrochemical Society*, *ECS Letters*, and *ECS Transactions*, and also receive unlimited downloads from *Interface* and *ECS Meeting Abstracts*.
- **Select your own technical interest areas**—ECS offers numerous opportunities to meet with your peers and expand your circle of contacts through our thirteen technical Divisions and special technical subcommittees.
- **ECS meetings provide the perfect opportunity to network with an elite group of professionals**—ECS holds two major international meetings each year, or you can exchange technical ideas through the programs of the 21 Sections in Asia and Japan, Europe, Latin America, the Middle East, North America, and Southern Asia.
- **Stand out in your field with honors and awards**—Colleagues can recognize your accomplishments, as well as the achievements of your friends and peers, through the ECS Honors and Awards Program, which includes two dozen Society, Division, and Section Awards, and the distinguished Fellow designation.
- **Gain access to the ECS Member Directory**—Only available to members, this online directory provides easy reference to colleagues throughout the world.
- **Take advantage of the ECS Career Center**—The job bank is for prospective employers to post job openings in fields relating to electrochemistry and solid-state science and technology. The Resumes online database enables ECS members to post their resumes and/or desired positions for prospective employers to browse.
- **Significant discounts and special offers**—on all ECS products, including monographs published by John Wiley & Sons.
