

Welcome to New ECS Affiliates

The Society welcomed two new Contributing Members to the ECS Affiliates program this past fall.

Lam Research Corporation, joining at the Sustaining Member level, is a supplier of wafer fabrication equipment and services to the world's semiconductor industry. Lam is a technical leader in etch products and also offers next generation solutions for CMP cleaning. Founded in 1980, Lam is headquartered in Fremont, California and maintains more than 40 customer support centers throughout the United States, Japan, Europe, and the Asia Pacific region. Visit the company on the Web: www.lamrc.com.

Precious Plate Inc., also joining at the Sustaining Member level, excels at plating sharply defined areas of small precision parts. The company's innovative mechanical and electrochemical techniques precisely locate the deposit and maximize precious metal conservation. Numerous single and multi-strand reel-to-reel machines perform selective and controlled depth electroplating on a variety of stamped and bandoliered contacts. For more information about the

company, contact them by e-mail: info@preciousplate.com.

The ECS Affiliates program allows Affiliates to take advantage of new opportunities of special advertising and exhibiting offers. Learn more about the program on the Web: www.electrochem.org/affiliates.html, or call Barbara Baggott, ECS Affiliates Coordinator at 609.737.1902, ext.15.

ECS Journals Now Searchable on DOE's New PubSCIENCE

A new free online search service, PubSCIENCE (<http://www.osti.gov/pubsci>), was unveiled this past October. It was developed and built by the Department of Energy's (DOE) Office of Science and the Government Printing Office (GPO); the GPO is sponsoring the public access of PubSCIENCE through its GPO Access web site. ECS is a charter member of this exciting new service, which includes approximately 500 scientific and technical journals from over twenty participating publishers.

PubSCIENCE, developed by DOE's Office of Scientific and Technical Information (OSTI), focuses on the physical

sciences and other energy-related disciplines. Dr. Walter L. Warnick, OSTI's Director, says "PubSCIENCE was modeled after the highly recognized PubMed, which covers medical sciences and, like PubMed, will continue to expand with the vision of becoming a comprehensive compendium of searchable, published information about the physical sciences and other disciplines of concern to DOE." PubSCIENCE represents the latest in a series of web-based services developed by OSTI for public use within the past three years.

PubSCIENCE's easy-to-use search system provides the scientific and educational community with a resource to quickly identify and locate peer-reviewed journal articles. The user can navigate across hundreds of bibliographic citations from multiple journal sources and identify information of interest. The user can then link directly to the publisher's doorstep to view the electronic full-text. Access to the full-text will normally require a subscription, site license, or pay-per-view arrangement. Fee-based arrangements to view the full-text at the publisher's site are the responsibility of the users. ■

Division and Group News

Electrodeposition Division

The Division held its election of officers at the Fall Meeting in Hawaii. The following members were elected for the 1999-2001 term:

Chairman
Madhav Datta
Vice-Chairmen
Sudipta Roy
Secretary
Dan Schwartz
Treasurer
John Stickney
Members-at-Large
Walther Schwarzscher
Gery Stafford

High Temperature Materials Division

The Division held its election of officers at the Fall Meeting in Hawaii. The following members were elected for the 1999-2001 term:

Chairman
Steve Visco

First and Second Vice-Chairmen

Fernando Garzon
Beth Opila

Secretary/Treasurer
Suzanne Mohney

Members-at-Large

S. Adler
H. Anderson
T. Armstrong
M. Dokiya
S. Haile
M. Hitchman
H. Iwahara
N. Jacobson
M. Liu
T. Maruyama
M. McNallan
M. Mogensen
T. Ramanarayanan
S. Russek
D. Shores
S. Singhal
K. Spear
M. Swihart
E. Wachsman
B. Wagner
W. Weppner

W. Worrell
O. Yamamoto

Luminescence and Display Materials Division

The Division held its election of officers at the Fall Meeting in Hawaii. The following members were elected for the 1999-2001 term:

Chairman
Cornelis R. Ronda
Vice-Chairman
David Lockwood
Secretary-Treasurer
Lauren Shea
Members-at-Large
M. Royce
T. Soules
A. Srivastava
C. Struck
T. Welker
H. Yamamoto
W. Yen
