

Electrodeposition Science and Technology in the last Quarter of the Twentieth Century

Dieter Landolt¹

¹Materials Department - LMCH
Swiss Federal Institute of Technology Lausanne
Lausanne EPFL CH-1015
Switzerland

Progress in electrodeposition science and technology will be discussed on the basis of a corresponding article published as part of the centennial series of reviews in the Journal of Electrochemical Society. The oral presentation will include selected examples which illustrate different fundamental and applied aspects and accomplishments of electrodeposition and related technologies.
