Preface.....	iii
--------------	-----

ELECTROCHEMISTRY IN MINERAL AND METAL PROCESSING VI

Flotation and Sulfide Passivation

The Value and Limitations of Electrochemical Measurements in Sulphide Flotation Z. Ekmekçi, D.J. Bradshaw, P.J. Harris, A. Aslan, and H. Hassoy.....	1
Electrochemical Effects on Mineral Surface Property Modifications E. Mielczarski and J.A. Mielczarski.....	13
Electrochemical Behaviour and Surface Characterisation of Enargite (Cu ₃ AsS ₄) in 0.1 M HCl J. Ásbjörnsson, G.H. Kelsall, R.A.D. Patrick, D.J. Vaughan, P.L. Wincott, and G.A. Hope.....	15
Redox Conditions in the Selective Flotation of Enargite S.H. Castro, L. Baltierra, and C. Hernández.....	27
Electrochemical Behaviour and Surface Characterisation of Tennantite in 0.1 M HCl J. Ásbjörnsson, G.H. Kelsall, D.J. Vaughan, R.A.D. Patrick, P.L. Wincott, and G.A. Hope.....	37
Differentiation of Monolayer and Multilayer Coverage of Thiol Collectors on Metal Sulfides by Means of ToF-SIMS S.W. Goh, A.N. Buckley, R.N. Lamb, and R. Woods.....	48
SERS Investigation of the Interaction of the Flotation Collectors – Diisobutyldithiophosphinate and Butylethoxycarbonylthiourea – With Coinage Metal Surfaces R. Woods, G.A. Hope, and K. Watling.....	60
Electrochemistry of Pyrite Flotation: Second Maximum of Hydrophobicity V.E. Vigdergauz.....	72
Development of an On-Line Eh-pH Electrochemical Sensor for Copper Flotation Plants C. Hecker C., M. Vera Q., and E. Beas B.....	84

Passivation of Sulfide Minerals: Are the Metal-Deficient Layers Responsible? Y. Mikhlin, Y. Tomashevich, A. Kuklinskiy, D. Shipin, I. Asanov, A. Okotrub, V. Varnek, and N. Bausk.....	96
Kinetic Study of Chalcopyrite Passivation During Electrochemical and Chemical Leaching A.F. Tshilombo and D.G. Dixon.....	108
 <i>Hydrometallurgy</i>	
Electrochemical Reactions of Arsenopyrite in Acidic Solutions Y. Mikhlin, D. Shipin, A. Kuklinskiy, and I. Asanov.....	120
Electrochemical Reactivation of Galena Surface During its Electrodeposition in Perchlorate Medium at pH 0 J.L. Nava, M.T. Oropeza, and I. González.....	131
Acid Leaching and Dissolution of Major Sulfide Ore Minerals: Processes and Galvanic Effects in Complex Systems P.K. Abraitis, R.A.D. Patrick, G.H. Kelsall, and D.J. Vaughan.....	143
Galvanic Interactions Affecting the Reactivity of Sulphide Minerals R. Cruz-Gaona, R.M. Luna-Sánchez, G. Lapidus, M. Monroy, and I. González.....	155
An <i>In Situ</i> FTIR Study of Galena and Pyrite Oxidation in Aqueous Solution I.V. Chernyshova.....	166
Raman Investigation of Sulfide Leaching G.K. Parker, R. Woods, and G.A. Hope.....	181
Surface-Enhanced Raman Spectroscopy of Gold Dissolution in Cyanide K. Watling, G.A. Hope, and R. Woods.....	193
Anodic Dissolution of Cobalt in Ammoniacal Ammonium Carbonate Solution J.W. Lee, H.W. Pickering, and K. Osseo-Asare.....	204
The Passivation of Iron During the Leaching of Pre-Reduced Laterite Ores in Ammoniacal Solutions A.N. Nikoloski, M.J. Nicol, and J.E. Fittock.....	205
Ion Exchange Recovery of Cyanide-Containing Gold Complexes Y.S. Kononov, G.L. Pashkov, A.G. Kholmogorov, and A.O. Sirotyuk.....	219

Removal of Nickel Cations and Silver Complex Anions from Dilute Process Waters Using an Ion-exchange Electrodialysis System L.J.J. Janssen, P.B. Spoor, and L. Koene	224
---	-----

Aqueous Electrodeposition

The Design of a 4 Electrode Flow Through Cell for the Online Analysis of Thiosulfate Concentration in Solutions Containing Copper and Ammonia P.L. Breuer, M.I. Jeffrey, E.H.K. Tan, and A.W. Bott	236
A Comparison of Cyanide and Thiosulfate Baths for the Electroless Plating of Gold Thin Films A. Angstetra and M.I. Jeffrey	248
Mathematical Modelling of Electrowinning Multiple Metals at a Porous Electrode D. Pilone and G.H. Kelsall	260
Comparison of Laboratory, Pilot Plant, and Tankhouse Copper Cathodes C. Bemelmans and N. Hazen	272
Transient Adsorption of Sulfate Ions During Copper Electrodeposition G.A. Hope and R. Woods	282
A Rotating EQCM Study of the Effect of Electrolytes, Additives and Metal Impurities on the Electrodeposition of Gold(I) Thiosulfate W.L. Choo and M.I. Jeffrey	292
Study of the Cathodic Processes During the Nickel Electrowinning from Ammonia-Ammonium Chloride Solutions R. Cruz-Gaona and D. Dreisinger	304
Simultaneous Removal of Cyanides and Copper in an Electrochemical Reactor - Effects of Agitation L. Szpyrkowicz, R.M. Souto, F. Ricci, and S.N. Kaul	316
An Investigation of the Electrodeposition of Copper Relevant to the Removal of Dissolved Copper from Semiconductor Industry Waste Streams R. Ding, W. Ewing, J.W. Evans, and F.M. Doyle	326
Electrowinning of Cobalt from a Sulfate-Chloride Solution as an Option for Treatment of Industrial Effluents J.H. Huang and A.M. Alfantazi	336

Electrowinning

Recovery of Solder and Electronic Components from Printed Circuit Boards R.W. Gibson, D.J. Fray, J.G. Sunderland, and I.M. Dalrymple.....	346
Commercial Development of a Descending Packed Bed Electrowinning Cell D. Robinson, S. MacDonald and F. Todaro.....	355
Performance Characteristics of the EMEW® Cell P.A. Treasure.....	367
Copper Electrowinning in the Absence of Acid Mist S. Mella, R. Villarroel, and A. Lillo.....	379
Electrolytic Magnesium Production with Hydrogen Chloride Gas Generation at the Anode Instead of Chlorine G. Van Weert, G. St-Amant, and M. Rejaee.....	391
Electrochemical Reduction of Uranium Oxide Fuel in a Molten LiCl/Li ₂ O System S.X. Li, S.D. Herrmann, M.F. Simpson, and D.R. Wahlquist.....	401
Author Index.....	410
Subject Index.....	411
