Peter Faguy Joins MicroCoating Technologies

Peter Faguy has joined MicroCoating Technologies (MCT) as its Director of Electrochemical Materials Division, with responsibilities for development and commercialization efforts. MCT, an Atlanta-based advanced materials company, markets the open atmosphere CCVD process for applying thin films to a variety of substrates including metals, ceramics, and polymers. This technology is licensed exclusively to MCT through the Georgia

Tech Research Corporation.

Dr. Faguy joins MCT with over 26 years experience in analytical chemistry, materials chemistry, electrochemistry, and applied surface technology. Prior to joining the company, he was an associate professor at the University of Louisville. At MCT, his primary charter will be to scale up R&D efforts and expedite time-to-market for CCVD innovations in the fuel cell industry. ■

In Memoriam

Martin Krijer Santiago (1964-1999), member since 1998, Corrosion.

Glenn A. Malone (1932-1999), member since 1991, Electrodeposition.

Edward M. J. Mullarkey (1929-1999), member in the 1950s and since 1996, Electrodeposition.

FUTURE TECHNICAL MEETINGS

March 25-30, 2001
Washington, DC

September 2-7, 2001
San Francisco, CA

May 12-17, 2002
Philadelphia, PA

*For information on these
future meetings, contact the
Society Headquarters office at:
65 South Main Street
Pennington, NJ 08534-2839
Tel: 609.737.1902
Fax: 609.737.2743*
