

AWARDS

Olin Palladium Medal Award

The Olin Palladium Medal Award, consisting of a palladium medal, a wall plaque, and a \$7,500 cash prize, recognizes outstanding contributions to the fundamental understanding of all types of electrochemical or corrosion phenomena and processes.

The next presentation of the award will be made during the 204th meeting in Orlando, FL in October 2003. The recipient will be required to deliver a general address to the Society on a subject related to the contributions for which the award is made.

As this is one of the Society's most prestigious awards, careful consideration should be given to possible nominees. For more information, or to receive nomination forms, please contact the subcommittee chairman: R. G. Kelly, Department of Materials Science and Engineering, University of Virginia, Charlottesville, VA 22903, USA; tel: 804.982.5783, fax: 804.982.5799, e-mail: rgkelly@virginia.edu, or contact The Electrochemical Society headquarters office.

Nominations must be received by the subcommittee chairman by October 1, 2002.

Carl Wagner Memorial Award

The Carl Wagner Memorial Award of The Electrochemical Society recognizes outstanding contributions in the areas of interest to the Society. The nominees for this award should be distinguished as mid-career researchers and leaders (or teachers), with the research and leadership encompassing interdisciplinary depth. Although the nominee need not be a member of the Society, nominations for the award must come from one or more Society members.

The recipient of this award will be required to attend the 204th Society meeting in October 2003 in Orlando, FL and present a brief technical address on a subject related to the contributions for which the award is presented.

The award consists of an ECS life membership, a certificate, a silver medal, complimentary meeting registration to recipient and guest, and reimbursement of the expenses incurred in attending the meeting at which the award is presented.

As this award is one of the Society's most prestigious awards, possible nomi-

nees should be given considerable thought.

For more information or nomination forms, please contact the subcommittee chairman, Cynthia Bruckner-Lea, Pacific Northwest National Lab, MS K8-93, P.O. Box 999, Richland, WA 99352-0999, USA; tel: 509.376.2175, fax: 509.376.1044, e-mail: cindy.bruckner-lea@pnl.gov, or contact The Electrochemical Society headquarters office. Supporting documents should include nominating statements by Society members, a list of the candidate's publications, and other appropriate materials.

Nominations must be received by the subcommittee chairman by October 1, 2002.

The Electrochemical Society Fellows

Nominations are now being accepted for the 2003 Class of Fellows of The Electrochemical Society. Selection as a Fellow is one of the highest honors bestowed on a member of the Society, acknowledging that the recipient is distinguished by outstanding contributions to the advancement of science and technology in the areas of electrochemistry and/or solid-state sciences, leadership in the advancement of electrochemical or solid-state science and technology, and current active participation in the Society's affairs. All members are urged to give serious consideration to nominating possible candidates.

Those candidates selected as Fellows will be recognized by the awarding of a certificate and a lapel pin at the Society Honors and Awards Session at the 2003 fall meeting of the Society in Orlando, FL, announcement in *Interface*, listing as a Fellow when an author of a *Journal* or *Letters* article, and notation on the identification badge at Society meetings. Fellows are elected at a rate of up to 20 per year. Please submit nomination forms to: Albert Landgrebe, 814 Sussex Lane, Long Neck, DE 19966-6634, USA; tel: 302.945.4306, fax: 302.945.2219, e-mail: albert@dmv.com.

Deadline for submission of candidates is January 15, 2003.

Electronics Division Award

Nominations are now being accepted for the Electronics Division Award, to be presented at the Society's 203rd spring 2003

meeting in Paris, France. This award, presented annually, recognizes active members of the Society who have made outstanding scientific contributions and enhanced the stature of the Society by presentation of their work in papers in the *Journal* and at Society meetings.

To be considered for this award, all nominees must be a member of the Society and have authored or coauthored more than one article in the *Journal* and/or presented more than one full paper at a Society meeting within the last five years. The award consists of a scroll and \$1,500.

Nominations for this award must be accompanied by supporting data, such as a list of publications, patents, activities, and a brief summary outlining the accomplishment on which the award will be based, and should be submitted before September 1, 2002 to the chairman of the Electronics Division award committee: G. Celler, Soitec/USA, 38 Old Oak Drive, Summit, NJ 07901 USA; tel: 908.665.8457, fax: 908.336.0564, e-mail: gceller@soitecusa.com.

Research Award of the Energy Technology Division

The Research Award of the Energy Technology Division was established to encourage excellence in energy-related research and to encourage publication in the *Journal of The Electrochemical Society*. The award recognizes outstanding contributions to the science and technology of energy-related research areas that include scientific and technological aspects of fossil fuels and alternative energy sources, energy management and environmental consequences of energy utilization. The Research Award, consisting of a scroll and \$1,500, will be presented at the annual business meeting of ETD during the 2003 spring ECS meeting, at which the winner must deliver an award lecture. Nominations for this award and the appropriate documentation should be forwarded to Prof. James M. Fenton, Department of Chemical Engineering, U-222, 191 Auditorium Road, University of Connecticut, Storrs, CT 06269 USA; tel: 860.486.2490; fax: 860.486.2959. The deadline for receipt of nominations for the 2002 award is August 1, 2002.

Awards

(continued from the previous page)

New Electrochemical Technology (NET) Award

Nominations are sought for the New Electrochemical Technology (NET) Award of the Industrial Electrolysis and Electrochemical Engineering Division. This award is intended to promote high quality applied electrochemical research, and to recognize the role of multidisciplinary teams in developing ideas into technology. The award will be presented during the business luncheon of the IE&EE Division at the spring 2003 ECS meeting in Paris, France.

The award will be presented to the organization sponsoring the technology. Up to six key contributors to the success of the technology development, as identified by the sponsoring organization, will be recognized individually. The award consists of a commemorative plaque with appropriate inscription presented to the sponsoring organization.

The primary award criterion is technological impact on the industrial practice of electrochemistry. Award appli-

cants will include published papers and issued patents, plus other documentation as noted on the nomination form. To be considered, the technology must have been commercialized within 10 years of the award date. Commercial advances involving applied electrochemical science as a major development vehicle are eligible for consideration. Award preferences may be given to technological achievements in areas particularly served by the IE&EE Division.

Deadline for the receipt of nominations is September 1, 2002. More information, including nomination forms, is available from ECS headquarters or the chairman of the award committee: Clifford W. Walton, Walton & Associates, P. O. Box 978, Pennington, NJ 08534-0978, USA; tel: 609.466.8079, fax: 734.758.5360 e-mail: cwalton609@aol.com.

Manuel M. Baizer Award

Nominations are invited for the 2004 Manuel M. Baizer Award of the Organic and Biological Electrochemistry Division. This award, sponsored by The

Electrosynthesis Company, Inc. and by Monsanto Company, recognizes individuals who have made outstanding contributions to the electrochemistry of organic and organometallic compounds, carbon-based polymers, and biomass, whether fundamental or applied.

The Baizer Award will be presented at the spring 2004 meeting of The Electrochemical Society in San Antonio, TX. The recipient will receive an honorary scroll and \$1,000, and must present an award lecture at the Organic and Biological Electrochemistry Division business meeting.

Previous recipients of this award include Tatsuya Shone (1994), Henning Lund (1996), Sigeru Torii (1998), James H. P. Utley (2000), Jacques Simonet (2000), and Jean-Michel Savéant (2002).

Submit your letter of nomination, listing the accomplishments, and supporting publications of your nominee to A. Fry, Department of Chemistry, Wesleyan University, Middletown, CT 06459 USA; tel: 860.685.2622, fax: 860.685.2211, e-mail: afry@wesleyan.edu.

The deadline for submission of nominations is January 15, 2003.

Max Bredig Award in Molten Salt Chemistry

Nominations are solicited for the Max Bredig Award in Molten Salt Chemistry of the Physical Electrochemistry Division. The Division has established this award in order to encourage excellence in molten salt chemistry research and to stimulate publication of high quality research papers in the *Journal*. This encouragement is provided by bringing recognition to scientists who have made outstanding contributions to the field of molten salt chemistry and who have enhanced the scientific stature of the Society by the presentation of well-recognized papers in the *Journal* and by organizing and participating in Society meetings. The Max Bredig Award in Molten Salt Chemistry shall be granted to a scientist for outstanding scientific contributions to molten salt chemistry. Previous winners of the award are: Milton Blander (1987), G. Pedro Smith (1990), Robert Osteryoung (1992), Gleb Mamantov (1994), Niels Bjerrum (1996), Harold Øye (1998), Yasuhiko Ito (1999), and George Papatheodorou (2002).

The award, consisting of a certificate, a stipend of at least \$1,500, and, if

required, financial assistance toward travel expenses to the Society meeting at which the award is made. The recipient of the award is required to attend the Society meeting at which the award is presented, and to present an award lecture at the International Molten Salt Chemistry Award Dinner sponsored by the Physical Electrochemistry Division, which is to be held at the 2004 fall ECS meeting in Honolulu, HI. The award is funded from the income of the Max Bredig Award Fund, which has been specifically established for this purpose by contributions from the ARCO Metals Company and the Aluminum Corporation of America (ALCOA).

Nominations must be accompanied by supporting documents, such as a biography, list of publications, professional activities, a brief summary of the outstanding contributions on which the award is to be based, and letters of support. Six copies of the nominations documents should be submitted to the award chairman: J. Leddy, Iowa State University, Department of Chemistry, Iowa City, IA 52242, tel: 319.335.1720, fax: 319.335.1720, e-mail: johnaleddy@uiowa.edu. The deadline for nominations is January 31, 2003.

The Lash Miller Award of the Canadian Section

The Lash Miller Award of the Canadian Section Canadienne consisting of monetary award of 1000 Cdn. \$ is presented every two years in honor of Lash Miller and his contribution to thermodynamics and electrochemistry. The Lash Miller Award is presented to a candidate of less than 40 years of age in recognition of the excellence of the candidate's publications and/or technical contributions in the field of electrochemical science and technology and/or solid-state science and technology. The candidate must have demonstrated independent research in academia, industry or governmental laboratories. The recipient must have made his or her contribution while working in Canada, but need not to be a Canadian citizen. Candidates may be nominated from industry, government, or universities.

Candidates must be nominated in writing by at least one member of The Electrochemical Society. Nomination of a candidate for the Lash Miller Award of the Canadian Section requires: the name of the candidate, date of birth, address, professional affiliation, and titles. Nominators

must sign the nomination paper. The nomination shall be supported by two statements: (1) A summary statement, of one page or less, setting out clearly the main reasons why, in the opinion of the nominators, the candidate should be considered for the Award. This statement should have reference to the nature, originality, usefulness, and extent of applicability and merits of the work of the candidate; and (2) a detailed statement setting forth all information which, in the opinion of the nominators, the award committee should have in order to appraise the qualifications of the candidate.

The deadline for nominations is December 31, 2002.

Please mail nominations to: Dr. Elena Babes-Dorea, GE Syprotec Inc., 179 Brunswick Blvd, Pointe Claire, Montreal (Quebec) H9R 5N2, Canada; tel: 514.693.1428, fax: 514.694.9245, e-mail: elena.babes@ps.ge.com.

The Heinz Gerischer Award of the European Section

The Heinz Gerischer Award of the European Section of The Electrochemical Society has been founded by friends of the late Prof. Gerischer (1919-1994) in order to honor his immense contributions to semiconductor electrochemistry, photoelectrochemistry, and to physical and materials chemistry in general. In addition, this award is intended to recog-

nize the scientific leadership of Prof. Gerischer and his tireless efforts to promote scientific collaboration in post WWII Europe. The prize has been established through a generous contribution from the family of the late Prof. Heinz and Dr. Renate Gerischer, as well as former colleagues and friends.

The award will be presented for the first time at the 2003 spring ECS meeting in Paris, as the focal point of a special symposium in areas related to Prof. Gerischer's work. The award recipient will give a plenary lecture as part of the symposium, and will be honored at a European Section reception commemorating the life and work of Prof. Gerischer.

Nominations are being sought for an individual or a small group of individuals (no more than three) who have made an outstanding contribution to the science of semiconductor electrochemistry and photoelectrochemistry, including the underlying areas of physical and materials chemistry of significance to this field. Nominations should be sent to the chairman of the European Section, Dr. Alison Davenport, The University of Birmingham, Metallurgy and Materials, Edgbaston, Birmingham B15 2TT, UK, by September 30, 2002. Details of the requirements for the nomination package can be found on the European Section web page, or can be obtained from Dr. Davenport (a.davenport@bham.ac.uk). ■
