

CONTENTS

Preface.....	iii
--------------	-----

ELECTROCHEMISTRY IN MINERAL AND METAL PROCESSING V

Flotation

Influence of Grinding Media on the Electrochemistry of Sulfide Ore Flotation J. Leppinen, R. Kalapudas and K. Heiskanen.....	1
Comparison of Thionocarbamate and Xanthate Interaction with Pyrite in the Presence of Copper C. Sui, T. Pecina-Trevino and J.A. Finch.....	13
Investigation of Hydrophobicity/Hydrophilicity Transitions with an Electrochemical Quartz Crystal Microbalance M. Jeffrey and R. Woods.....	24
Activation Energies for the Adsorption of Potassium Ethylxanthate on Sulfide Minerals from Tafel Studies N.K. Mendiratta and R.-H. Yoon.....	36
Surface Enhanced Raman Scattering Spectroscopic Studies of the Adsorption of Flotation Collectors G.A. Hope, R. Woods and K. Watling.....	48
Effects of Diethylenetriamine and Sulfur Dioxide on Pyrrhotite Depression N.K. Mendiratta, R.-H. Yoon and S. Wilson.....	60
Interaction of Collectors with Pre-Oxidised Sulfide Mineral Surfaces: Adsorption of Iso-Butyl Xanthate on Galena A.N. Buckley, B. Gong, R.N. Lamb and R. Woods.....	72
The Adsorption of Dicresyl Dithiophosphate onto Pyrite, I. A UV-Visible Spectroscopic Study of Adsorption Kinetics S.R. Grano, C.A. Prestidge and J. Ralston.....	84
Electrochemistry of Copper Activation of Sphalerite and Xanthate Adsorption Zhuo Chen and R.-H. Yoon.....	96
Potential Control Flotation of Galena and Its Industrial Application Gu Guohua, Hu Yuehua, Qiu Guanzhou and Wang Dianzuo.....	107

Sulfide Oxidation and Gold Processing

Comparison of Oxidation Properties of Synthetic and Natural PbS (100) Surfaces K. Laajalehto and P. Nowak.....	119
Electrokinetic Properties of Gold-Particles in the Presence of Several Electrolytes and of Amyl Xanthate M.B.M. Monte, F.F. Lins and J.F. Oliveira.....	129
Recovery of Gold from Pyrite (FeS ₂) by Aqueous Chlorination I. Oxidation Rates of Gold and Pyrite in Aqueous Chlorine Solutions N.J. Welham and G.H. Kelsall.....	141
Oxidation of Pyrite in Nitric Acid Solutions: Relation to Treatment of Refractory Gold Ores J.R. Flatt and R. Woods.....	152
Recovery of Gold from Pyrite (FeS ₂) by Aqueous Chlorination II. Reduction of Aqueous Chlorine on Pyrite (FeS ₂) N.J. Welham and G.H. Kelsall.....	164
Electrochemical Aspects of Gold Cyanidation M. Jeffrey and I. Ritchie.....	176

Oxidation and Leaching of Minerals

Hydrometallurgical Gold Recovery from Arsenopyrite Coaly-Schist Concentrates G.L. Pashkov, Y.S. Kononov, A.G. Kholmogorov, O.N. Kononova and Z.P. Kuzina.....	187
An Electrochemical Study of Gold Oxidation in Solutions Containing Thiosulfate, Ammonia and Copper P. Breuer and M. Jeffrey.....	195
Electrochemical Oxidation of Pyrite in Alkaline Electrolytes: An Investigation Employing Cyclic Voltammetry, <i>In Situ</i> Scanning Probe Microscopy and <i>Ex Situ</i> X-Ray Photoelectron Spectroscopy P.K. Abraitis, N.P. Brandon, K.E.R. England, G.H. Kelsall, A.R. Lennie, R.A.D. Patrick, D.J. Vaughan and Q. Yin.....	206
Some Aspects of the Electrochemistry of Chalcopyrite under Typical Leaching Conditions I. Lázaro and M.J. Nicol.....	217

A Comparative Study of Electrochemical Behavior of Chalcopyrite, Chalcocite and Bornite in Sulfuric Acid Solution G. Bahena, I. González and E.M. Arce.....	231
Formation, Structure and Reactions of Disordered Non-Stoichiometric Layer at Pyrrhotite Yu. Mikhlin, A. Kuklinskiy, Ye. Tomashevich, G. Pashkov, V. Kargin, N. Pavlenko, V. Varnek, I. Asanov and A. Okotrub.....	237
Galena and Sphalerite Dissolution Process in Acidic Chloride Media I. Cisneros-González, M.T. Oropeza-Guzmán, I. González.....	249
 <i>Hydrometallurgy</i> 	
Potential-pH Diagrams for Copper in Aqueous Solutions of Various Organic Complexing Agents S. Aksu and F.M. Doyle.....	258
Cementation of Copper Ions by Nickel Metal E.M. Ho and I.M. Ritchie.....	270
Effect of Surface Non-Stoichiometry on the Dissolution of Metal Sulfides Yu. Mikhlin, Ye. Tomashevich, I. Asanov and A. Okotrub.....	282
 <i>Electrowinning and Electrorefining</i> 	
Application of Titanium Mesh-on-Lead Technology to Metal Electrowinning Systems K.L. Hardee and M.S. Moats.....	294
Modelling the Distributions of Potential, Concentrations and Current Densities in Zinc Electrowinning Reactors G.H. Kelsall and G. Li.....	303
Copper Electrowinning: Modelling and Simulation H. Aminian and C. Bazin.....	315
Model of Local Current Efficiencies and Specific Electrical Energy Consumptions in Zinc Electrowinning Cells G.H. Kelsall, E. Guerra, G. Li and M. Bestetti.....	326
Electrochemical Behavior of Thiourea and its Decomposition in Copper Electrorefining Zhimin Zheng and D.B.Dreisinger.....	338

Effects of Manganese(II) and Chloride Ions in Zinc Electrowinning Reactors G.H. Kelsall, E. Guerra, G. Li and M. Bestetti.....	350
The Physical Properties of Nickel Electrodeposits D. Kittelty and M. Nicol.....	362
Author Index.....	374
Subject Index.....	375
