

TABLE OF CONTENTS

	Page
<u>Electrodeposition and Imaging Techniques</u>	
Application of <i>f</i> -NSOM Imaging with Functional Tips to Characterize the Local Chemistry on Reactive Surfaces* <i>F. Guillaume, J. Evju and W.H. Smyrl</i>	1
Localized Electrodeposition <i>W. Schindler, D. Hofmann and J. Kirschner</i>	12
Nanochannel Electrodes Fabricated on Silica-Passivated Metals Using Scanning Probe Lithography <i>J.W. Robertson and J.E. Pemberton</i>	16
Nanostructuring of Polycrystalline and Single Crystal Gold Electrodes by Copper Electrodeposition Using <i>in situ</i> SPM Methods <i>T. Schimmel and W.J. Lorenz</i>	25
Characterization of High Surface Area Platinum Black and Dendritic Gold Colloidal Systems <i>B. Ilic, D. Czaplewski, P. Neuzil, T. Stanczyk, J. Blough and G.J. Maclay</i>	34
Imaging with High-Frequency Electrogenenerated Chemiluminescence* <i>R.G. Maus, E.M Gross and R.M. Wightman</i>	46
<u>Scanning Vibrating Probe and Scanning Kelvin Probe Techniques</u>	
Investigations of Polyaniline-Coated Stainless Steel in Sulfuric Acid Solution* <i>R. Gasparac and C. R. Martin</i>	56
SVET Measurements on a Pitting Site Induced by a Local Chemical Activation <i>X. Phillipe, B. Vuillemin, R. Oltra, L.C. Dufour, L. Coudreuse and M. Verneau</i>	72
Characterisation of Corrosion Processes and Oxide Films Using a Kelvin Probe <i>A.K. Neufeld, A. Bond and I.S. Cole</i>	84

Scanning Volta Potentials Measurements of Metals in Irradiated Air <i>H.S. Isaacs, G. Adzic, C.S. Jeffcoate and M.P. Ryan</i>	94
Use of Scanning Kelvin Probe to Study the Corrosion Protection of HDG by Chromate Coatings <i>L. Forget, J. Delhalle and Z. Mekhalif</i>	102
<u>Scanning Tunneling Microscopy and Scanning Probe Microscopy Techniques</u>	
Examination of Pt(hkl) Surfaces Decorated by Osmium and Ruthenium Submonolayers Using Electrochemistry and Scanning Tunneling Microscopy <i>A. Crown, I. R. Moraes, Z. Feng and A. Wieckowski</i>	110
Surface Dynamics and Electric Properties of the Passive Film on Iron by <i>in situ</i> STM <i>I. Diez-Perez, P. Gorostiza, F. Sanz and C. Muller</i>	122
<i>In situ</i> STM Studies on Anisotropic Electrochemical Dissolution of Au(111) and Au(100) Electrodes in Perchloric Acid Solution Containing Chloride Anion <i>S. Ye, C. Ishibashi and K. Uosaki</i>	133
Electrochemistry of STM Fabricated Metallic Nanowires* <i>N.J. Tao, C.Z. Li, H.X. He, A. Bogozzi, B.Xu and O.Lam</i>	148
<u>Atomic Force Microscopy and Scanning Electron Microscopy Techniques</u>	
Scanning Electrochemical Microscopy of Biological and Synthetic Membranes Using Reverse Imaging Mode* <i>O.D. Uitto and H.S. White</i>	163
Influence of Glass Transition Temperature of Cationic Electropaint System on Film Formation <i>Y-I. Suzuki, H. Fukui, K. Tsuchiya, S. Arita, and Y.H. Ogata</i>	168
Characterization of Nonspecifically Adsorbed Protein Films with Scanning Force Microscopy* <i>T.C. Ta and M.T. McDermott</i>	178
Nanometer-Scale Electrochemical Patterning of LiMn ₂ O ₄ Surfaces by an Atomic Force Microscope Operating in Air <i>R. Kosteki, F. Bonhomme, L.Servant, F. Argoul and F. McLarnon</i>	187
Surface Roughness Evolution During Copper Electropolishing <i>Y. Tian and I.I. Suni</i>	194

Use of Electrochemical and Scanning Probe Microscopy Techniques for
Probing Surface Mechanical Properties* 202
S.G. Corcoran
