

Contents

Preface.....	iii
Corrosion Science as a Tool for the Development of XPS..... J.E. Castle	1
Some Issues in Quantitative X-ray Photoelectron Spectroscopy and Auger-Electron Spectroscopy..... C.J. Powell, J.M. Conny and A. Jablonski	15
Valence Band Photoelectron Spectroscopy as a Probe of the Surface Chemistry Associated with Corrosion and its Prevention..... Peter M.A. Sherwood	46
Oxide Networks, Surface Analysis and the Passivity of Chromium Binary Alloys..... E. McCafferty	66
Tarnish Film Formation on Silver in Atmospheric Environments Containing Hydrogen Sulfide and Nitrogen Dioxide..... Joe H. Payer and Heesan Kim	72
Surface Analysis and Adhesion: From Locus of Failure to Interfacial Chemistry..... John F. Watts and Marie-Laure Abel	80
Combining Electrochemical and XPS Measurements for the Complete Picture..... G.D. Davis	92
An XPS Study of the Surface Modification of Passive Films by Microbes..... Clive R. Clayton and Gary P. Halada	102
Self-Assembled CdTe Quantum Dot Molecules on (100) ZnTe Surfaces..... M.H. Na, H. Luo and Y. Liang	113
Synthesis and Characterization of Self-Assembled Cu ₂ O Nano-Dots..... Y Liang, A.S. Lea, D.E. McCready and P. Meethunkij	125
Scanning Near-Field Infrared Microscopy Edward S. Gillman	134
Scanning Force Microscopy Measurements of Dissolution and Growth Processes: CaCO ₃ Examples..... D.R. Baer, Y Liang, A.S. Lea, J.E. Amonette and N.G. Colton	139

Applications of Synchrotron Infrared Microspectroscopy (SIRMS) to Corrosion, Contamination and Coatings.....	149
Gary P. Halada and Clive R. Clayton	
X-ray Absorption Spectroscopy: Application to Electrode Surface and Interface Analysis.....	163
J. McBreen and M. Balasubramanian	
Cathodic Reduction of Passive Films on Iron in Borate and Phosphate Buffer pH 8.4:Different Mechanisms Revealed by <i>In Situ</i> Techniques.....	178
P. Schmuki, S. Virtanen and H.S. Isaacs	
Characterization of Salt Particle Induced Corrosion Processes by Synchrotron-Generated X-ray Fluorescence Complementary and Surface Analysis Tools.....	187
Aaron K. Neufeld, Ivan.S. Cole, Alan M. Bond, Hugh S. Isaacs and Scott A. Furman	
Novel Techniques for the Investigation of Long-Term Photo-degradation of Multi-Layer Polymer Coatings.....	197
Lionel Keene, Clive R. Clayton, Gary P. Halada, Steve McKnight and Wendy Kosik	
Corrosion of Co-Sm Based Magnetic Media for Recording: A Surface Analytical Study	207
Iulica Zana and Giovanni Zangari	
Electrochemical Ellipsometry Study on Corrosion Resistance of Fe ₂ O ₃ -Cr ₂ O ₃ -M _x O _y (M:Valve Metals and Si) Artificial Passivation Films in Acid Solutions	215
K. Sugimoto, M. Son, N. Akao and N. Hara	
A Study of Corrosion and Pitting Initiation of AA2024-T3 Using Atomic Force Microscopy.....	224
P. Leblanc and G.S. Frankel	
Effect of Surface Pretreatments on Chromate Conversion Coatings.....	240
Devicharan Chidambaram, Clive R. Clayton, Gary P. Halada and Jeffery R. Kearns	
Effects of Mg and Cu on Al Corrosion in Alkaline Solutions.....	251
C.F. Windisch Jr., D.R. Baer, M.H. Engelhard, M.J. Danielson and R.H. Jones	
Study of the Structure and Formation of Chromate Conversion Coatings (CCC) on Thin Films of Copper-Containing Intermetallic Constituents in AA2024-T3.....	261
M.J. Vasquez, G.P. Halada, C.R. Clayton and J.P. Longtin	
<i>In Situ</i> Studies of Corrosion Using X-ray Absorption Near Spectroscopy (XANES)...	271
H.S. Isaacs, P. Schmuki, and S. Virtanen.	

Studies on the Repassivation Behavior of Aluminum Exposed to Dichromate Solution	282
Devicharan Chidambaram, Clive R. Clayton and Gary P. Halada	
Relationship of an Equivalent Electrical Circuit to Structure of Setting Calcium Phosphate Biocements.....	290
Herbert J. Mueller	
XPS Investigation of Oxidation of Cu Seed Layers for Microelectronics Applications	307
R.L. Opila, H.W. Krautter and K.M. Takahashi	
Keyword index	314
