

TABLE OF CONTENTS

Preface.....	iii
Poems for Bob.....	v
Robert P. Frankenthal: Scientist, Engineer, Role Model, Friend..... <i>J. D. Sinclair</i>	ix

Historical Perspectives

A Brief History of Corrosion Science and Its Place in The Electrochemical Society ... <i>R.P. Frankenthal</i>	1
Reminiscences of the First International Conference on Passivity..... <i>N. Hackerman</i>	11
U.R. Evans, A. Frumkin, and C. Wagner, Three Founders of Corrosion Science <i>H. Kaesche</i>	12
Aspects of Corrosion from the Electrochemical Society Publications <i>H. Isaacs</i>	26
Wagner-Traud to Stern-Geary; Development of Corrosion Kinetics <i>G.S. Frankel</i>	33
Revisiting some Vital Issues in Metallic Corrosion <i>J. Yahalom and D. Starosvetsky</i>	42
The Iron Dissolution Mechanism in Changing Times - From a Classical Quasi-homogeneous Surface Approach to an Atomistic Consideration <i>W.J. Lorenz and W. Wiesbeck</i>	55
A Brief History of Electrochemical Impedance Spectroscopy <i>D.D. Macdonald</i>	72
The Atmospheric Corrosion of Iron and Steel - A Historic Review and Future Perspectives <i>M. Stratmann</i>	89

Passivity and Oxidation

Passive Film on Iron- 2D Chemisorbed Oxygen or 3-D Oxide? <i>J. Kruger</i>	104
Passivity of Iron <i>M.J. Graham</i>	112

The Contribution of Surface Analysis to Corrosion Science: Historical Background and Current Status.....	117
<i>P. Marcus, V. Maurice, D. Costa, and A. Galtayries</i>	
Passivity and Corrosion Resistance of Metallic Materials	138
<i>K. Hashimoto and K. Asami</i>	
Passivity of Binary Alloys - A Look at Some Mechanisms.....	152
<i>E. McCafferty</i>	
The Non-Protective Oxidation of Copper at Low Temperatures	165
<i>J.E. Castle</i>	
Hot Corrosion	176
<i>R.A. Rapp</i>	
Passive Film Growth Kinetics for Iron and Stainless Steel	187
<i>A.J. Davenport and B.K. Lee</i>	
XPS, Impedance and Photo-Electrochemical Characterisation of Passive Films on Ni and Ni-18Cr in Sulphuric Acid Solution	198
<i>S. Fujimoto, H. Tsuchiya, M. Sakamoto, T. Shibata, and K. Asami</i>	
Point Defect Generation in Tailored Passive Oxides on Aluminum in the Study of Localized Corrosion	209
<i>K.R. Zavadil, J.A. Ohlhausen, P.G. Kotula and J.C. Barbour</i>	
Retrospective and Developing Concepts of Passivity and Passivity Breakdown of Metallic Materials in Organic Solutions	218
<i>D. Shifler</i>	
Effects of Hydrogen on the Semiconductive Properties of the Passive Film on Iron ...	231
<i>J.G. Yu, J.L. Luo, and P.R. Norton</i>	

Localized Corrosion

Reminiscences of Localized Corrosion in the Sixties; Potential, pH, and Personalities	241
<i>A. Pourbaix</i>	
Progress in the Understanding Pitting Corrosion.....	251
<i>Z. Szklarska-Smialowska</i>	
Metastable Pitting - Occurrence and Significance for Passive Metals	266
<i>T. Suter and H. Bohni</i>	
Important Early Developments and Status of the IR Mechanism of Localized Corrosion.....	274
<i>H.W. Pickering</i>	

Historical Understanding of Acid Chloride Passivity Breakdown on Fe-Cr Alloys and New Insight Derived from Artificial Passivation Film Experiments	289
<i>K. Sugimoto, M. Son, Y. Ohya, N. Akao, and N. Hara</i>	
Understanding Corrosion Mechanisms of Impure Aluminum and Related Phenomena	299
<i>K. Nisancioglu.</i>	
Aluminum Corrosion at Systems of Engineered Cu Particles	307
<i>N. Missert, R.G. Copeland, F.D. Wall, C.M. Johnson, J.C. Barbour, and P. Kotula</i>	
Etch Tunnels in Aluminum	314
<i>R.S. Alwitt, K.R. Hebert, and T. Makino</i>	
Exploratory Spectroscopic Imaging at Localized Corrosion Sites	327
<i>F. Guillaume, J. Evju, T. Knutson and W. Smyrl</i>	
Relationships Between Pitting Corrosion And Crystallographic Orientation, An Historical Perspective.....	334
<i>R.S. Lillard</i>	
Passivity of Alloy 22 in Concentrated Electrolytes. Effect of Temperature and Solution Composition	344
<i>K.J. Evans and R.B. Rebak</i>	
Susceptibility of Nickel and Cobalt Alloys to Localized Corrosion in Fluoride and Iodide Solutions. Comparative Behavior to Chloride and Bromide Solutions.	355
<i>N.S. Meck, P. Crook, and R.B. Rebak</i>	
Ion Adsorption Studies on Aluminum.....	369
<i>A.S. Besing, A. Kolics and A. Wieckowski</i>	
Measuring Localized Corrosion Using the Wire Beam Electrode Method	377
<i>Y.-J. Tan</i>	

Environmental Cracking

Hydrogen Embrittlement	385
<i>R. Oriani</i>	
Quantitative Prediction of Environmentally Assisted Cracking.....	400
<i>F. P. Ford</i>	

Coatings/Inhibition

An Historical Perspective on the Electrochemical Aspects of Corrosion Protection by Paints	419
<i>M. Kendig, J.D. Scantlebury, and D. Mills</i>	

Conversion Coating Science and Technology -Is It Still Evolving, or Is It Stuck? 430
R. Buchheit

Physico-chemical Characterization of Chromate Conversion Coatings
Formed on Al Substrates 441
*F. Di Quarto, M. Santamaria, N. Mallandrino, V. Laget, R. Buchheit,
and K. Shimizu*

The Inhibition of Corrosion-Driven Organic Coating Delamination on Iron by Novel
Cation-Exchange Pigments Studied Using the Scanning Kelvin Probe Technique..... 453
G. Williams and H.N. McMurray

Corrosion Studies of CoSm Thin Films Protected by Si₃N₄ Layer..... 464
I. Zana and G. Zangari

Investigation of the Behavior of 5-mercapto-1-phenyl-tetrazole as an Inhibitor
Against Copper Corrosion in Sulfuric Acid Media 473
E. Szocs, G. Vastag, A. Shaban, and E. Kálmán

Surface Enhanced Raman Spectroscopy (SERS) and Electrochemical Study of
Benzohydroxamic Acid Derivatives as Perspective Copper Corrosion Inhibitors 485
O. Blajiev, A. Hubin, and C. Buess-Herman

Corrosion-Related Failure

Predicting the Corrosion Performance of High-Level Nuclear Waste Containers 494
D. Shoesmith

Dendrite Growth in Electronic Materials and Devices: A Perspective and the
Electrochemical Mechanism.....506
L. Garfias, R.P. Frankenthal, and J.L. Valdes

The Kinetics of Fireside Chlorine Corrosion in Power Plant Boilers515
X. Liu, J. Maier, and K.R.G. Hein

Corrosion Mechanisms and Techniques

The Aqueous Corrosion Behavior Of Plutonium Metal Exposed
to Nitric Acid Solutions..... 527
D.G. Kolman

Investigating Changes In The Corrosion Mechanism Induced By Laser Welding
Galvanised Steel Samples Using SVET 535
H.N. McMurray, J.R. Searle, B.P. Wilson, and D.A. Worsley

Erosion Corrosion of Austenitic and Duplex Stainless Steels..... 546
B. Bozzini, M. Bonidardi, and A. Fanigliulo

Development of a Microelectrode for High Resolution Investigations of Redoxpotentials and Impedance Spectroscopy in Corrosion Science	558
<i>W. Pernkopf, M. Sagl, G. Fafilek, P. Linhardt, J.O. Besenhard, H. Kronberger, and G.E. Nauer</i>	
A Spectroelectrochemical Study into the Anodic Behaviour of Au in Electrodeposition Baths Containing Organic Additives	566
<i>B. Bozzini and A. Fanigliulo</i>	
Surface Energy as a Variable in Electrochemistry	578
<i>L.D. Burke, D.P. Casey, A.M. O'Connell, and L.C. Nagle</i>	
The Thermal and Thermogalvanic Effects on Corrosion of Iron in Solutions with Different pH and Anion Composition	590
<i>S.A. Kaluzhina, A.V. Malygin, and V.V. Malygin</i>	
Author Index.....	599
Subject Index.....	602
