

TABLE OF CONTENTS

A. Process Emissions Characterization and Treatment

Emissions Characterization of Advanced CVD Processes and Abatement Performance V. Vartanian, B. Goolsby, C. Reddy, V. Arunachalam and L. Mendicino (Motorola)	1
Effective Management of Process Exhaust from Low-K CVD Processes S. Carss, A. Seeley, and J. Van Gompel (BOC Edwards)	12
Development and Evaluation of the ATMI CDO™ 865 for Abatement of Low-K Process Effluent B. Flippo and R. Vermeulen (ATMI MLS Division)	21
Managing Fluorine Emissions at Semiconductor Fabrication Facilities M. Smylie (ENVIRON International Corporation)	28
Characterization of Plasma-Etched RuO ₂ Substrates V. Vartanian, B. Goolsby, S. Samavedam, L. Mendicino, J.J. Lee T. Guenther (Motorola), S. Dakshina-Murthy (Advanced Micro Devices) and C. Sparks (International SEMATECH)	51
Evaluation of Ozone Emissions Destruction Units for SACVD Process Tools C. Nauert, R. Camacho, B. Day, R. Lathrop, H. Kwong, J. Fox (Motorola)	63
Potential Cost of Ownership Reduction for a Nitride Furnace Point of Use Abatement Device B. Goolsby, V. Vartanian, L. Mendicino, B. Davis, M. Rossow (Motorola)	77
Electrochemical Removal of Hydrogen Sulfide from Geothermal Brines B.G. Ateya and F.M. AlKharafi (University of Kuwait)	87

B. PFC Emissions Reduction

The Evaluation of Hexafluoro-1,3-Butadiene as an Environmentally Benign Dielectric Etch Chemistry in a Medium Density Etch Chamber R. Chatterjee, R. Reif (Massachusetts Institute of Technology), T. Sparks, V. Vartanian, B. Goolsby and L. Mendicino (Motorola)	99
Post-Pump PFC Abatement by Atmospheric Microwave Plasmas: Completion of Metal Etch Beta Test J.C. Rostaing, D. Guerin, C. Larquet, A. El-Krid, C.H. Ly, J. Bruat, E. Coffre, M. Moisan (Air Liquide Research and Development), H. Dulphy, P. Moine (Air Liquide Electronics Systems) and J. Wiechers (CS Clean Systems AG)	114
Characterization of NF ₃ Chamber Cleans on Multiple CVD Platforms B. Goolsby, V. Vartanian, L. Mendicino, J. Rivers, J. Vires, A. Soyemi (Motorola), S.P. Sun, M. Turner, and C. Esber (Advanced Micro Devices) ...	127

Reduction of PFC Emissions Through Process Advances in CVD Chamber Cleaning S. Hsu, C. Allgood, and M. Mocella (Dupont)	139
PFC Emissions Reduction and Process Improvements with Remote Plasma CVD Chamber Cleans L. Mendicino, P.T. Brown, S. Filipiak, C. Nauert, H. Estep and M. Fletcher (Motorola)	144
Thermal Reductive Destruction of Perfluorocarbons into Safe Products Through In-situ Generation of Alkali Metals in Heated Solid Mixtures M.C. Lee, W. Choi (Pohang University of Science and Technology)	157
C. Alternative Cleans Technologies and Emerging Issues	
Post Oxide Etching Cleaning Process Using Integrated Ashing and HF Vapor Process O. Kwon and H. Sawin (Massachusetts Institute of Technology)	166
Fluorocarbon Film and Residue Removal Using Supercritical CO ₂ Mixtures S. Myneni and D. Hess (Georgia Institute of Technology)	180
A Summary of Recent Motorola Water Conservation Efforts from Source Reduction of Process Equipment B. Raley, C. Nauert, and T. Dietrich (Motorola)	190
Partnerships to Address EHS Aspects of Chemical Management in the Semiconductor Industry: Lessons from the PFAS Experience M. Bowden (Arch Chemicals, Microelectronics Materials), L. Beu and S. Pawsat (Motorola)	200
PFAS: Treatment Options and Sampling Methods B. Raley, K. Barbee, L. Lovejoy, L. Beu, V. Vartanian, and B. Goolsby (Motorola)	208
D. EHS Risk Assessment and Management	
Concepts and Application of Risk Management to Address Business Needs P.T. Brown, S. Trammell, J. Heironimus, and L. Mendicino (Motorola)	218
Emergency Preparedness and Response for Semiconductor Manufacturing S. Harris and C. Nauert (Motorola)	226
Environmental Health and Safety (EHS) Investigation of CVD Exhaust System: Identification and Mitigation of Potential Release of Process Gases and By-products L. Chandna, A. Reynoso, C. Nauert, and K. Hendricksen (Motorola)	237
Point of Use Abatement Unit By-Pass for NF ₃ -Based CVD Chamber Clean Applications D. Babbitt, L. Mendicino, V. Vartanian, B. Goolsby and P.T. Brown (Motorola)	248
