

TABLE OF CONTENTS

PREFACE.....	iii
Electrochemistry of Pit Formation and Growth..... <i>G. T. Burstein</i>	1
Organic Functionalization of Porous Silicon Nanostructures..... <i>R. Boukherroub, A. Petit, A. Loupy, J.-N. Chazalviel, and F. Ozanam</i>	13
Nanoscale Surface Features Formed on Aluminum by Dissolution Processes <i>J. Houser, K. R. Hebert</i>	23
Self-Ordering Anodic Porous Alumina Induced by High Electric Field Strength <i>S. Ono, N. Kato, M. Saito, and H. Asoh</i>	34
Nano Pore Formation in Anodic Alumina..... <i>K. N. Rai</i>	43
Effects of Iron Content on Crevice Corrosion of Grade-2 Titanium at 120°C..... <i>X. He, J. J. Noel, and D. W. Shoesmith</i>	55
Self-Organized Porous Titanium Oxide Nanotubes..... <i>P. Schmuki, H. Tsuchiya, L. V. Taveira, L. F. P. Dick, and J. M. Macák</i>	70
Fabrication of Self-Organized Titania Nanostructures on Glass by Combinational Anodizing Technology..... <i>S. Z. Chu, S. Inoue, K. Wada, and S. Hishita</i>	79
Nanotubes Fabricated by Anodizing Processes for Advanced Material Application..... <i>W.-J. Lee and W. H. Smyrl</i>	91
Electrochemical Processing for Cu and Ni Nanowire Arrays..... <i>M. Motoyama, Y. Fukunaka, T. Sakka, Y. H. Ogata, and S. Kikuchi</i>	99
Bi-Stable Pore Size during Electrochemical Etching of n-Type Silicon <i>P. Y. Y. Kan and T. G. Finstad</i>	109
Fabrication of Inverse Opal Structure of Silica by Si Anodization <i>H. Asoh and S. Ono</i>	117
Fabrication of Porous Niobia by Anodizing of Niobium..... <i>S. Ono, T. Nagasaka, H. Shimazaki, and H. Asoh</i>	123
Nascent, Metastable, and Induced Nanostructures on Silicon Electrodes <i>H. J. Lewerenz, J. Jakubowicz, and H. Jungblut</i>	134
Structural Change in Porous Si by Photoillumination during Metal Particle Enhanced Etching <i>S. Yae, T. Kobayashi, T. Kawagishi, N. Fukumuro, and H. Matsuda</i>	141
Morphology of Porous Layer Formed Locally on n-InP(001) by Anodic Polarization in HCl After Scratching..... <i>M. Seo and T. Yamaya</i>	147

Visible Photoluminescence from Anodized p-Type InP(100) and n-Type GaP(100).....	159
<i>D. J. Lockwood, U. Schlierf, J. Wloka, and P. Schmuki</i>	
Thick Porous Oxide Layers on Fe-Cr and Ni-Cr Alloys Formed by Square Wave Potential Pulse Polarization.....	180
<i>S. Fujimoto</i>	
Electrochemical Properties of Fe ₂ O ₃ -Cr ₂ O ₃ Thin Films and Pitting Behavior of Fe-Cr Alloys in Neutral NaCl Solutions.....	194
<i>K. Sugimoto, Y. Ohya, N. Akao, and N. Hara</i>	
Effects of Solution Temperature on the Electronic Properties of Passive Film Formed on Fe in pH 8.5 Borate Buffer Solution.....	205
<i>S. Ahn and H. Kwon</i>	
Influence of Copper on the Anodizing of Binary Aluminum-Copper Alloys.....	218
<i>J. Idrac, C. Blanc, G. Mankowski, M.-C. Lafont, G. Thompson, T. Hashimoto, P. Skeldon, Y. Liu, and Y. Kihn</i>	
The Investigation of Copper Anodic Oxidation in Alkaline Electrolytes with Alanine by Ellipsometric Method.....	226
<i>S. A. Kaluzhina, E. V. Nikitchenko, and N. P. Andreeva</i>	
The Role of Chloride Ion in Passivity Breakdown on Nickel.....	237
<i>S. Ahn, H. Kwon, and D. D. Macdonald</i>	
Localized Surface Attack of 7XXX Series Aluminum Alloys.....	248
<i>R. S. Huang, C. J. Lin, and H. S. Isaacs</i>	
Interfacial Voids as Possible Precursor Site for Pore Formation and Pitting in Aluminum.....	254
<i>K. R. Zavadil, J. D. Chavez, and P. G. Kotula</i>	
Approaches to Elucidate the Effects of Mo Species on Pitting Corrosion of Fe-Cr Alloys.....	265
<i>S. Virtanen and W. Tobler</i>	
In Situ Observation of Metal State in Pitting of Stainless Steel.....	273
<i>M. Kimura and M. Kaneko</i>	
Analysis of Transient Passive Film Growth on Zirconium in High Temperature Aqueous Solution.....	289
<i>Y. Chen and D. D. Macdonald</i>	
Thermodynamic Evaluation of Amorphism on Film Breakdown and Pitting.....	302
<i>D. Tromans</i>	
Cooperative Spreading of Pit Sites as a New Explanation for Critical Threshold Potentials.....	314
<i>N. Budiansky, L. Organ, A. S. Mikhailov, J. L. Hudson, and J. R. Scully</i>	
Electrochemical Oscillation of Open Circuit Potential during Immersion Plating of Copper on Silicon.....	325
<i>Y. H. Ogata, J. Sasano, T. Itoh, T. Sakka, E. Rayón, E. Pastor, and V. Parkhutik</i>	

The Use of Microelectrodes in the Study of the Effects of Electrolyte Composition, Potential and Metallurgical Condition on Nucleation and Metastable Pitting of Stainless Steel 316.....	335
<i>G. O. Ilevbare and G. T. Burstein</i>	
Microprobe Study of pH during the Induction Period Preceding Crevice Corrosion.....	348
<i>R. C. Wolfe, H. W. Pickering, and B. A. Shaw</i>	
Fabrication of Electrochemical Micro-Reactor by Photon Rupture Method and Electrochemistry	359
<i>M. Sakairi, M. Yamada, and H. Takahashi</i>	
In Situ Porous Silicon Interface Roughness Characterization by Laser Interferometry	371
<i>S. E. Foss, P. Y. Y. Kan, and T. G. Finstad</i>	
Smart Dust: Ferromagnetic Photonic Crystals Derived from Porous Silicon.....	383
<i>M. J. Sailor, Y. Y. Li, N. Trujillo, and J. R. Dorvee</i>	
One-Dimensional Photonic Crystal Electrochemically Etched into Porous InP and Biosensing Applications.....	389
<i>T. Djenizian, J. R. Link, H. Tsuchiya, M. J. Sailor, and P. Schmuki</i>	
The Pitting Behavior of Structural Electrodeposits Used in MEMS Applications....	396
<i>F. D. Wall, L. M. Serna, and M. A. Martinez</i>	
The Influence of the Current Density on the AC-Graining Morphology	402
<i>T. Dimogerontakis, P. Campestrini, and H. Terry</i>	
Active Peak Formation, Repassivation Scan, pH, and the IR Switch in the Delayed Form of Crevice Corrosion	412
<i>A. M. Al-Zahrani and H. W. Pickering</i>	
Corrosion Behavior of Copper-Rich Model Alloys.....	424
<i>C. Blanc, K. Tchobanov, A. Freulon, Y. Kihn, G. Mankowski, M.-C. Lafont, C. Dufaure, and C. Mijoule</i>	
Intergranular Corrosion Morphology and Growth Kinetics in AA7075 and AA7178.....	434
<i>T.-S. Huang and G. S. Frankel</i>	
Blister and Pit Formation during Cathodic Polarization of Aluminum Covered with Anodic Oxide Films – In Situ AFM Observation.....	447
<i>S. Kurokawa, Z. Kato, T. Kikuchi, M. Sakairi, and H. Takahashi</i>	
Pitting of Laser Welded Steels.....	463
<i>Y. M. Looi, J. H. W. de Wit, and H. S. Isaacs</i>	
Localized Coating Failure on AA2024-T3 in Different Electrolyte Environments...	471
<i>O. Schneider, G. O. Ilevbare, J. R. Scully, and R. G. Kelly</i>
