

Request to Publish a Journal Focus Issue

ECS publishes focus issues in order to highlight scientific and technological areas of current interest and future promise that are expanding rapidly or have taken a new direction. The collection of articles in a focus issue should include research, review, critical review, perspective, and communication article types that have an expectation to be highly cited.

Name & Email: _____

Endorsing Technical Editor(s): _____

Proposed Guest Editor(s) (2-5): _____

Proposed Title (12 words or less): _____

Related ECS Symposium (if any): _____

ECS Division(s) Endorsement (if any): _____

Topical Interest Area(s) (check as many as apply):

- | | |

| <input type="checkbox"/> Physical and Analytical Electrochemistry, Electrocatalysis, and Photoelectrochemistry | |
| <input type="checkbox"/> Sensors (Electrochemical) | |

Description of the topic for the call for papers:

Justification of the topic vis-à-vis technical content appropriate to ECS and timeliness/significance of the topic:

Expected journal citations/impact from the issue:

Please include a graphic (JPG file format; 300 dpi) to be used for the promotion of this issue. If no graphic is available, please include technical keywords for ECS staff to find photo options from [iStock](#).

Yes, I have an image. No, here are keywords to use: _____

Please attach a preliminary list of authors and manuscript titles. Is a list attached? Yes No

Proposed timeline: **Accepting Submissions:** _____

Submission Deadline: _____

(The period between the opening for submissions and the deadline is three months.)

Should this request be accepted, I understand that an editorial/preface will be required. I will work with the journal's technical editor to complete this content by the scheduled due date. By checking yes, I understand. Yes

Call for papers to be sent to:

- Entire ECS database Specific ECS Division(s) only Related symposium presenters only Special invitees only
 Other: _____
